

# Weill Cornell Medical College

Mass Spectrometry, Proteomics, Metabolomics Core Facility Director  
Weill Cornell Medical College,  
New York, New York, 10065

Weill Cornell Medical College is seeking applications for a non-tenure track faculty position in a basic science department to direct, manage and oversee all daily activities of a new proteomics and metabolomics core in the recently opened Belfer Research Building. The core facility will provide mass spectrometric identification and quantification of proteins and small molecules for the WCMC community.

Qualified candidates will have an advanced degree (PhD) in analytical chemistry or related field and extensive experience with peptide and/or small molecule separation and mass spectrometry. Experience with Thermo linear ion trap and orbitrap mass spectrometers is desired.

Interested applicants should forward curriculum vitae and the names and contact information for three references to [WCMCancercenterjobs@med.cornell.edu](mailto:WCMCancercenterjobs@med.cornell.edu)

*Weill Cornell Medical College is an Affirmative Action/Equal Opportunity Employer.*
