## **SOP for Methanol, Isopropanol, Ethanol**

## University of Washington

	Standard C	perating Procedures	for Chemicals or Processes	
#1 Process	Flammab	ble solvents use and storage- including the following:		
(if applicable)	Methanol, Isopropanol (IPA), Ethanol			
#2 Chemicals	Flammable solvent vapors can travel and can produce fire and explosion if an ignition			
	source is contacted. Some flammable solvents are more hazardous than others. Many solvents also have an effect on the central nervous system and at high concentrations			
	cause sedation, coma and death. Contact with solvents can de-fat skin and cause			
	irritation of skin and mucous membranes.			
#3 Personal Protective	Wear flame-resistant lab coat and chemical splash goggles, consult Laboratory Safety			
Equipment (PPE)	Manual Appendix G for proper glove selection. Call EH&S (3-7388) for further information.			
#4 Environmental /	Solvents should be dispensed only in a fume hood or in a well-ventilated space.			
Ventilation Controls				
#5 Special Handling Procedures & Storage	Mixing or dispensing should be done in a hood or in a well-ventilated space with all sources of ignition eliminated (hot plates, burners, etc.). Solvents should be stored in			
Requirements	appropriate flammable cabinets, separate from acids, bases, and oxidizers.			
•	Flammabl	e cabinet is located I	359.	
#6 Spill and Accident	Remove all sources of ignition from the spill area if it is safe to do it. Small fires may be extinguished if it is safe and the operator is trained to use the fire extinguisher.  Wipe down spill area with solvent absorbent pads. Solvent absorption pads are stored under the sink.			
Procedures				
#7 Waste Disposal	Label with Hazardous Waste Label, accumulate according to requirements, and send in Chemical Collection Request or Routine Pickup request, both available online at <a href="http://www.ehs.washington.edu/epowaste/chemwaste.shtm">http://www.ehs.washington.edu/epowaste/chemwaste.shtm</a> . Do not evaporate flammable solvents in the fume hood.			
#9 Chariel Draggutions	N/A	e solvents in the turne	e 1100a.	
#8 Special Precautions for Animal Use	IN/A			
(if applicable)				
Particularly hazardous		YES:	Blocks #9 to #11 are Mandatory	
substance involved?		X NO:	Blocks #9 to #11 are Optional.	
#9 Approval Required	N/A	<u></u>	Blooke no to need optional.	
#10 Decontamination	N/A			
#11 Designated Area	N/A
